LETTER OF TRANSMITTAL

OFFICE OF THE SECRETARY OF STATE STATE OF FLORIDA

Tallahassee, Florida
January 1, 1943

Honorable Spessard L. Holland,
Governor of Florida,
Tallahassee, Florida.

Dear Sir:

In compliance with the requirements of law I have the honor to submit herewith my report of the transactions of this office for the years 1941 and 1942. In addition to giving detailed statements of all transactions of the office and a record of commissions issued, I am also making some suggestions with reference to needed legislation in the field in which this office is particularly interested or with reference to laws that this office administers.

Notwithstanding a season when many small businesses operated by corporations have been hard hit there has been no large decrease in the receipts from corporations either in the charter tax on the initial forming of new corporations, or in the capital stock tax which is an annual tax on the exercise of the corporate privilege. The clerical work incident to both these phases has not been lessened because even in the case of corporations surrendering their charters or permitting them to be extinguished by the Governor's Proclamation following capital stock payment delinquencies there is still considerable work required by the personnel of this office in connection therewith.

ELECTIONS

During the past biennium the office had the handling of the regular primaries and general elections as well as several special elections called by the Governor to fill vacancies. In the case of our primary election laws there are amendments needed to iron out some difficulties arising mainly from a great variety of registration laws and in the time limit required for filing expense accounts, etc. In these matters I shall be glad to suggest directly to the Legislators what, in my opinion, are needed amendments.

The enactment by Congress of the Federal Law known as Public Law 712 enacted in September of 1942 required this office to handle considerable extra work in connection with the absentee voting of Florida citizens in the military or naval services. Inasmuch as there was no State law providing for wholesale absentee voting based on the grounds of military service no attempt was made to include State and County officials on the ballots furnished those in the military service prior to the General Election of 1942. The Attorney General gave an advisory opinion to the effect that the State law would not permit any other course, but the Act of Congress was fully complied with insofar as all Federal offices to be filled in the General Election of 1942 were concerned.

I recommend that the Legislature make provision for those in the military service to vote for candidates for State and County offices even though absent from the State. In other words, I should like to see a State law that will supplement and complement the Federal Law. This, if done, will of necessity require a tremendously increased load on this office for handling the mechanics of such participation by those in the military service. Such a State Law would, of course, have to be drawn with the time element kept constantly in mind so that the absentee voting requirements will dove-tail in with the time provisions in our present Primary and General Election Laws.

MEMBERSHIP ON BOARDS

Since my last biennial report the Secretary of State has been placed on two boards or commissions in addition to the eleven on which he was already serving. These two were the State Planning Board and the Florida Economic Advancement Council. In the case of the latter, the Secretary of State is also serving as Secretary, furnishing all of the secretarial facilities without cost to the Council. I am glad to be able to give attention to much of the work and many of the problems on some of our important boards. In fact, an appreciable amount of my time is devoted to the work of the boards and commissions on which I serve as an ex-officio member.

DUTIES AS CUSTODIAN

The Secretary of State is custodian of the Capitol and grounds. The capitol building has been seriously overcrowded for some time. The last Legislature wisely provided for the addition of a south wing but the General Revenue Fund has

been insufficient to meet this and a number of other appropriations payable from it. The need for additional space in the capitol building grows more and more acute each year. Then, also, in the older parts of the building major repairs, especially in such installations as the heating and wiring, may have to be made soon. I have been able to keep up the maintenance of the building within the appropriation made for that purpose, but this covers bare necessary maintenance and minor repairs.

CIVIL SERVICE RECOMMENDED

For the past six years I have recommended a modified civil service law for state employees. In previous reports I have stated that "the highest efficiency cannot be reached and maintained if the State employees labor under the constant fear of losing their positions." This is particularly true in the clerical work. I still hold the same view and am again making the same recommendation. In recommending a civil service law for state employees I do not have in mind one which would take from the head of the department the necessary authority of freeing the department of inefficient help, but a reasonable "middle ground" as I have before stated can be incorporated in a modified civil service law or one that will give merit examinations and reasonable assurance of tenure to employees so long as they abide by regulations.

CENTRAL RECORDS DIVISION

I repeat my recommendations of two years ago and four years ago in which I then said "It is recommended that the Legislature be requested to enact suitable legislation providing a Central Records Division for this office in which there would be filed information from the various licensing boards and professional examining boards and which these boards would be required to file with this office. Numerous requests are received for information of this type and it is necessary for me to take up with these various boards each item as the request comes in. Other states have the Central Records Division and find it advantageous for the public."

CAPITAL STOCK TAX

The capital stock tax law has been in operation since 1931 and has produced substantial revenues for the general revenue fund each year. With the many other Federal taxes and reports now required of corporations I deem it unwise to increase the amount of this tax or to amend it any substantial

way the capital stock tax law. The law is so drawn that it can be enforced at very low expense. It does not require an army of field representatives or tax collectors. The main "teeth" in this law is the provision for the automatic dissolution when three years delinquent. Occasionally some corporate executives really overlook this unintentionally and find their corporation dissolved very much to their disadvantage. The Legislature of 1939 and in 1941 enacted a law that would be in effect for a limited time only permitting the revival of these dissolved corporations upon the payment of the three years back taxes. I recommend that such an Act should also be passed by the 1943 Legislature.

CONCLUSION

This office has enjoyed for some time the reputation of giving "prompt, efficient and courteous service." This was the slogan or motto adopted when I became Secretary of State and I am now recording my gratitude for the large number of letters and verbal expressions received from over the State attesting to the prompt and satisfactory service rendered by the Office of Secretary of State.

I wish also to express my appreciation to your Excellency for your kindly consideration and co-operation.

Respectfully submitted,

R. A. GRAY,

RAG/MH

Secretary of State.
